Roblox was created by a company called Ellation. According to Wikipedia, Ellation is a gaming production company based in San Francisco, California. They started out with games that were mainly for children but now have many different types of games in which you can play with your friends and family. Some of the games have mini-games where you can buy special items or earn coins in order to unlock new areas or items. The idea behind roblox is that players can earn robux by playing and participating in the game universe. With this system, players do not need to spend money on anything; they just collect more robux as they play in the game. Robux is the virtual currency of Roblox and can be bought in packages or earned in-game.

Roblox claims that she was fired because they found out she was using her workplace computer to dig up personal information about her co-workers and this affected her job performance. However, she claims that the only reason they are saying this is because they found out about her blog post and didn't want the bad publicity. Roblox also provided an email that Chris sent to HR in May of 2021 regarding erratic hours. She says that it was just a single complaint and wasn't fired for it.

On multiple occasions, ROBLOX has been hacked into by outside sources. In one of the more recent hacks (2021), hackers took advantage of an exploit to provide themselves with unlimited build tools in games. Users without knowledge of the exploit were forced to leave the game because the tools were infinite and other players could not stop them. This issue was not fixed until two days later. [9] ROBLOX has a rule against using bots (automated scripts that allow players to automatically perform actions) but this rule can be easily bypassed due to the fact that users are able to easily create incredibly powerful bots with simple scripting. The easier ROBLOX makes it for users to create powerful scripts, the more likely they are going to be used in botting and/or spamming games. This is one of the reasons why user-created games like "The Plaza" have been taken down.

Productivity Tools: ROBLOX has released many tools to players in the past. Some of them have been useful to players, while others prove to be

more controversial. The most recent ones were their "Full Studios" which had many features and tools that allowed players to go into the game engine and change things remotely. However, many users claimed that this was a privacy issue due to the fact Roblox can track all changes, such as the movement of people through the game or make copies of other people's games.

When one makes inappropriate content in Roblox-like swearing in their username or wearing inappropriate clothing they are roleplaying as an adult - the creators aren't doing anything about it. There are moderators but there should be more because some do not care about these problems or do not log on to Roblox at all times.

11. There is a rule that allows inappropriate activity on Roblox to get banned. 12. There are too many glitches within the game such as the bug where the game does not close when you come out of a video, and it doesn't force you to close but it just stays on the screen, and even though you are out of the game, your character is still doing stuff such as talking about other people's friends and such. 13. Roblox needs to have a platform for developers where they can submit their games without them being judged or having any problems with inappropriate content getting banned along with their account and everything else that goes on within this platform.

I like roblox but it is still not better than minecraft in my opinion because minecraft have so much stuff, people can do a lot of stuff. I think Roblox needs to get a lot of money so they can improve more stuff than they already got. I love roblox but I still think that it could be way better, so here is some of my ideas 1. It should have better graphics 2. It should have better game servers 3. There should be more new games, but there is a thing what I don't like about roblox is that the games are kind of the same every single time, and you end up playing them too many times 4. The games should either really get harder or really easier

People may think that Roblox is a very childish game but in reality it is not. I have seen many adults playing this game, and I believe that they just maybe started in the past few years. The reason why people say Roblox is a child's game is because it has some pretty high minded themes in the games you can play. For example being able to make your own avatar or being able to decorate your own house, these are things that at first glance seems like something you'd do with your friends or family. Of course these are just things to make players feel good about themselves. But really the game is not about anything but just making a character and having fun.

In December 2021, Roblox changed its website design again.[64] This can be viewed here: Roblox Main Page. An official subreddit was created in January 2021 by user pb_bacon.[65] It has since grown to have over 3,000 subscribers (as of May 2021) and 338 pages (as of May 2021).
