On September 11, 2021, Roblox announced that they would be adding new systems to help curb and prevent problems like "Miner's Haven". They stated that users who are reported for breaking these rules will be put on a probationary moderation period, or P-mod. P-mods can say they had violated these rules for up to 72 hours. If the user continues to break the rules and continue breaking it after 72 hours, Roblox will issue a permanent ban for both the user and their account. The users who are in this moderation period will not be able to play Roblox games until 72 hours pass from when the user is released from the P-mod status. The users will also receive a warning from Roblox before they are released from the P-mod status.

Roblox has been accused of neglecting its staff and failing to offer development positions to its employees because its staff is almost entirely composed of white males, even though Roblox's community has been growing in diversity for years.

They're clearly taking steps in this direction by creating special perks, abilities, etcetera for those who have purchased robux from them. They're also creating clothing items which are being sold for outrageous prices with the sole purpose of being able to differentiate those who pay from those who don't in their game. This is wrong. It's unethical and it should not be tolerated.

Roblox is involved in a lawsuit concerning child safety on the Internet. On September 17, 2021, two brothers filed a lawsuit in the United States District Court, Southern District of California against Roblox Corporation and its founder and CEO David Baszucki. The suit alleged that the defendants failed to protect their nine- and thirteen-year-old sons from inappropriate content on Roblox that resulted in emotional distress. The suit also accuses the company of negligence for failure to monitor potentially harmful content and failure to institute parental monitoring measures. The case is known as "McDonald v. Roblox".

The system is also very inconsistent in how it deals with complaints and bans. One of the more infamous examples is user "Sephiroth", who had been banned for attempting to distribute his game, "TitanMC". The ban was eventually lifted, and the account became widely regarded as a joke.[11]

The acquisition is part of a strategy by RoLabX to become a global gaming powerhouse with operations in China, with over 50% of revenues coming from China alone by 2021. The deal also confirmed that Tencent will continue to operate as the chief customer and user experience partner for ROBLOX. In late 2021, ROBLOX announced that they would be running advertisements on their site. Unfortunately, these advertisements were run-of-the-mill ads and did not produce any revenue for the company itself but also had a negative impact on their community as they were being flooded with ads featuring nudity, extreme gore, racism and other inappropriate content. In addition to this, many games would feature these ads despite not making any money from them themselves. ROBLOX was banned from Xbox Live in 2021 due to the game running advertisements which violated Microsoft's Terms of Service by being inappropriate for children. The ads contained anime-style nudity and extreme gore. This was later changed however when Roblox reached an agreement with Xbox Live regarding the matter between them.

If that never happens then the servers are going to crash and the game will die. If you take a look at the way ROBLOX's developers are trying to make even more money, you will see that they do not want to add any real value to their games. They want people to spend real money for fake money (robux) so they're going to make it so that it's impossible for someone who doesn't pay for robux to exist within their virtual world.

Media usage and privacy concerns from various sources (see articles) have prompted user action against the company. ROBLOX is a site that allows its users to create their own 3D worlds by building them with the Roblox Studio software. Users can also import their own model and use it in their game. Users can also upload their game and give it ratings on ROBLOX's website. ROBLOX has also allowed users to create art of other games from other developers on YouTube through ROBLOX's brand of accounts created for this purpose. However, they have been criticized for not allowing users to upload custom art they have created into their games, which is done by making custom "Avatar" models for users which can then be used in-game.

Good for improving cognitive function. There are a lot of games on roblox that can actually help your child improve their cognitive function, such as games such as the "Maze" game which can increase their motor skills.
