ROBLOX has official clients for Windows, macOS, Linux, iOS, Android, Xbox One, and PlayStation 4. ROBLOX also has a game engine called "Build" which can be downloaded for free to those wishing to develop games for their website. Although not officially supported by ROBLOX themselves, the client source code is also available on GitHub. As such, there are unofficial ports of ROBLOX to other platforms not supported officially by ROBLOX such as Xbox 360, Raspberry Pi and Tizen. An early attempt at an iPhone port in 2021 was unsuccessful due to concerns over the stability of the platform and a lack of toolchain support.

Roblox allows players to sell their own creations (such as hats and T-shirts) with unique names. These names usually contain the item name followed by "item" and sometimes the price. In this day and age, there are many ways that you can buy free robux. For example, you could perform a search on the internet for "get free robux" and see what comes up. This will take a few minutes but it may be worth it, as you could find online posts that recommend certain websites or apps where you can get free robux. You may not be sure if the website is safe to use, but just type in "free robux reviews." If there are any reviews posted about a site or app, they should tell how effective it is at providing users with free robux. If you find an app or site that looks legitimate and safe to use, then you could start reading about it. The first thing you should do is read the terms of service, as this will tell you if there are any fees attached to using the online application. If there are no fees involved, then it might be worth giving the website a try.

The site is very buggy due to the fact that user-created games are made in such a way that users can alter almost every aspect of any game. However, this has upsides too as users can fix most bugs themselves. They have often been taken down because they are "offensive". This is hard to believe since the site has been around for nearly 10 years. ROBLOX allows people to advertise on their site for just about any product they want and will let them earn money with it. However, this can be considered a bad thing in some cases, as advertisers can create "scams", such as charging people \$5 dollars to create a game that can only be played by Admins or other users with unusual settings/roles.

I have attempted to make a list of all the free Roblox code sites and codes I know of. You should be wary when using these codes, as some do not work anymore or may lead to viruses/malware on your computer. I've also made a list of which sites are safe and which sites are unsafe for you to visit. Please be cautious and do not enter any codes you have found in a comment on Youtube, on Reddit, or anywhere else. Always make sure to read the comments of the videos and follow all instructions before using them.

The free robux card codes are the cards that were given out to players who completed a certain action on Roblox. The player would then be able to collect the card and have it autoclaimed as soon as they logged into Roblox. Codes could be used to redeem the extra Robux and Builders Club. Codes were received through several different ways. Players could receive a code from a friend, or they could get a code from the internet. Codes were sometimes given out for certain reasons, such as attending conventions for Roblox (ROBLOX RocketCon) or writing about Roblox on your blog/website. Codes are autoclaimed when you log into your account on ROBLOX.

ROBLOX also offers badge packages; however there is no way of transferring badges between games. ROBLOX has other games such as "Roblox Heroes", "Roblox D&D", and "The Guild 2" (releasing on December 14, 2021).

In January 2021, Roblox permanently banned all accounts that were created by Arielle De La Rosa. The company said it was because of her "continued behavior", which included actions such as creating Emily Roe and harassing other users, as mentioned above. Although she had been blocked from Roblox for over a year, they said their original ban for her had been lifted in November 2021. They also stated that she could no longer be unblocked on their platform because of previous harassment reports against other players. The ban was not for her actions, but instead because of the continued harassment she had done.
